

NH AIM/ERASE Monthly Webinar

December 12, 2024
Welcome!

- We will begin shortly
- Reminder, we will be recording this session
- Your line will be muted upon entering. Please enter comments or questions in the chat
- Julie Bosak & Maggie Coleman will monitor the chat box and call on you to unmute yourself
- If you have trouble connecting, please email Margaret.A.Coleman@hitchcock.org

12/13/2024

New Hampshire Perinatal Quality Collaborative

To Receive CME/CNE Credit for Today's Session

Text: 833-884-3375

Enter Activity Code: 143628

Need help?

clpd.support@hitchcock.org

CE is ONLY available for live attendance.

12/13/2024

New Hampshire Perinatal Quality Collaborative

REMINDERS:

Please feel free to share the recording with colleagues and those you feel would benefit if they are unable to attend @ www.NNEPQIN.org: [Educational Offerings](#) | [NNEPQIN](#)

We HIGHLY value your input. Please be sure to **complete the evaluation** that Maggie Coleman will send to you immediately following the webinar. It takes less than 5 minutes to complete.

12/13/2024

New Hampshire Perinatal Quality Collaborative

The importance of improving our birth certificate data collection.

12/13/2024

New Hampshire Perinatal Quality Collaborative

Today's Agenda

- AIM Bundle Updates and September QA Review: Maggie Coleman, MPH and Maddie Bridge
- The importance of improving our birth certificate data collection.
 - Carolyn Nyamasege PhD, MPH, MS
- Q&A
- Announcements
- Please note: Today's speakers have nothing to disclose.

12/13/2024

New Hampshire Perinatal Quality Collaborative

Gender Statement: We recognize that pregnant people have a variety of gender identities. There may be gendered language in this presentation, especially when citing other sources but the content of this presentation is applicable to all pregnant people.

A quality improvement initiative to support best practices that make birth safer, improve maternal health outcomes and save lives.

CDC works with MMRCs to improve review processes that inform recommendations for preventing future deaths.

12/13/2024

New Hampshire Perinatal Quality Collaborative

Critical Collaborations: NNEPQIN/NHPQC, ERASE and AIM

Created from a Centers for Disease Control, Division of Reproductive Health source

12/13/2024

New Hampshire Perinatal Quality Collaborative

Critical Collaborations: NNEPQIN/NHPQC, ERASE and AIM

Accurate birth certificate data supports effective surveillance and public health initiatives

12/13/2024

New Hampshire Perinatal Quality Collaborative

AIM Bundle Updates

12/13/2024

New Hampshire Perinatal Quality Collaborative

Rebecca Casey, APRN – Case Consultation and Education Opportunities for all AIM Participants

- **Weekly open office hours on Mondays from 12:45-1:45pm virtually.**
 - Bring specific case management questions (no PHI), typical challenges, or come hear what other sites are encountering.
- **Becca is also able to hold tailored lunch and learn, education, and discussion sessions for your team.**
 - Postpartum depression, psychosis, and medication management, “What do I do when Zoloft fails?”
- **December 16, 2024** special session on postpartum depression with Q&A opportunity. Please join through weekly open office hour Webex link.

Please contact Maddie Bridge at Madalynne.M.Bridge@hitchcock.org if you would be interested in scheduling a tailored learning session or want office hours Webex calendar invite!

12/13/2024

New Hampshire Perinatal Quality Collaborative

“Toxic” Film Screening for Respectful and Equitable Care Education Measure

- “Toxic” is a short film (~25 minutes) about a day-in-the-life of a pregnant Black woman, and the racism and injustices that she faces.
- We can provide film screenings for your team with a facilitated group discussion (CEUs should be available)
- Click [HERE](#) for the film website and trailer
- “The facilitated discussion after the film was enlightening and respectful.” – Recent participant

Please contact Maddie Bridge at Madalynne.M.Bridge@hitchcock.org if you are interested in scheduling a session for your group.

12/13/2024

New Hampshire Perinatal Quality Collaborative

Future Webinar Planning

- Please take our [Education needs survey](#) to help us plan our 2025 webinars (please share widely with your unit, providers, staff, etc.)

12/13/2024

New Hampshire Perinatal Quality Collaborative

September QA Review Maggie Coleman and Maddie Bridge

12/13/2024

New Hampshire Perinatal Quality Collaborative

QA Refresher

- Two new Situational Surveillance questions on the facility worksheet
- For two weeks in March each unit kept a record of PMHCs
- We then compared unit observations to what was reported via the facility worksheet and held a webinar to share best practices/workflows
- This process was repeated in September

New Hampshire Division of Vital Records Administration
Situational Surveillance: Births

Planned Surveillance Period:	January 1, 2024 (Ongoing until further notice)
Topic:	Perinatal mental health
Inclusion Criteria:	All Births Occurring in New Hampshire

Maternal Medical Record Number: _____
Newborn Medical Record Number: _____

Q1: Was the mother diagnosed for any perinatal mental health conditions? <input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Unknown	Q2: If yes on Q1, did the mother receive treatment or was the mother referred for treatment? <input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Unknown
<i>Aim: Determine frequency of such conditions.</i>	<i>Aim: Determine if action was taken in response.</i>

Suggested information sources
Medical records/charts.

Additional Notes

Q1: Perinatal health conditions include, but are not limited to, depression, anxiety, bipolar disorder, post-traumatic stress disorder, obsessive-compulsive disorder, and psychosis. Responses of "Unknown" should be rare.

Q2: If Question One is answered "no", then answer this question with "no".

This worksheet may be reproduced as necessary. Colored paper is recommended (but not required).

THIS SITUATIONAL SURVEILLANCE WORKSHEET SHALL BE RETAINED BY THE HOSPITAL PERMANENTLY ALONG WITH THE BIRTH CERTIFICATE WORKSHEETS

Version: January 1, 2024

12/13/2024

New Hampshire Perinatal Quality Collaborative

Implementation Questions

- What "counts" as a PMHC?
 - Active during pregnancy
- What "counts" as a referral?
 - Our overall goal is to track if PMHCs are appropriately screened and addressed. So if someone has a diagnosis and it is discussed that counts as a "referral."
 - If the patient either declines a referral to additional treatment or is stable not requiring additional treatment it should still be captured as a referral at this point.
- Where do I find this information?
 - Medical records, chart notes, problem list, medication list, screening results

12/13/2024

New Hampshire Perinatal Quality Collaborative

QA results: Improved accuracy of capturing PMHCs?

- Measure: did we reduce the discrepancy between on-unit observations vs. worksheet reporting?
 - We looked at each site's **March QA denominator difference** (*PMHCs observed on unit – PMHCs reported via facility worksheet*)
 - We then compared to each site's **September QA denominator difference** (*PMHCs observed on unit – PMHCs reported via facility worksheet*)
 - Did the difference get closer to zero in September?
 - **At 8 of the 14 participating hospitals: YES**

12/13/2024

New Hampshire Perinatal Quality Collaborative

QA results: Improved accuracy of capturing tx/referral?

- Measure: did we reduce the discrepancy between on-unit observations vs. worksheet reporting?
 - We looked at each site's **March QA numerator difference** (*tx/referral observed on unit – tx/referral reported via facility worksheet*)
 - We then compared to each site's **September QA numerator difference** (*tx/referral observed on unit – tx/referral reported via facility worksheet*)
 - Did the difference get closer to zero in September?
 - **At 7 of the 14 participating hospitals: YES**

12/13/2024

New Hampshire Perinatal Quality Collaborative

QA results: in detail

- If you are interested in reviewing your site's QA results for March and/or September in more detail, please reach out to Margaret.A.Coleman@hitchcock.org or Madalynne.M.Bridge@hitchcock.org !

12/13/2024

New Hampshire Perinatal Quality Collaborative

Example workflows for
more accurately
capturing PHMC data

12/13/2024

New Hampshire Perinatal Quality Collaborative

Process Example: Admission Nurse

- **Patient** comes to the unit in labor
- **Admission nurse** grabs packet of forms/consents to be physically signed on paper, adds facility worksheet
- As **admission nurse** fills out screeners, they gather the information they need to answer the two facility worksheet questions
- Ideally done at admission, but **nurse** can also complete at discharge
- Worksheet is brought to the **birth registrar**

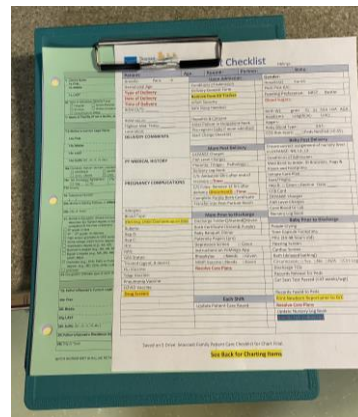

12/13/2024

New Hampshire Perinatal Quality Collaborative

Process Example: Provider/Nurse Collaboration

- **Patient** comes to the unit in labor
- All the paper worksheets are on the front of the patient's chart (see chart checklist photo)
- **Provider** comes to fill out the back page of the purple sheet
- **Labor nurse** fills out all the labor/prenatal items on the front of that sheet
- **Provider** or nurse fills out the yellow sheet (nurse as a backup)
- Once they're all completed they get left with the **birth registrar** in a file book

12/13/2024

New Hampshire Perinatal Quality Collaborative

Process Example: Provider

- Birth certificate stays on L&D floor
- When the **nurse** transfers the patient to maternity, they sure the **provider** signs it
- **Medical records department** comes up to the floor to collect it

Any Questions?

Carolyn Nyamasege

Birth Certificate Data Quality (DPHS/ Bureau of Family Health and Nutrition-MCH Section)

Presenter: Carolyn .K. Nyamasege,PhD,MPH,MS

Maternal and Child Health Epidemiologist

New Hampshire Department of Health and Human Services

Division of Public Health Services

25

Disclosures and Acknowledgments

- I have no conflicts of interest to disclose
- We gratefully acknowledge our many colleagues who work to provide data and to improve outcomes for birthing people, infants, and families every day.

Objectives

01

Overview of NH Birth certificate worksheet.

02

Discuss uses of NH birth certificate data using examples.

03

Discuss data quality concerns and identify a new data collection strategy that you can implement in your own practice.

Overview of Birth Certificate Data

- Birth certificates contain a wealth of data that are important for national surveillance, research, and directing public health prevention and intervention strategies.
- Collected information is critical to identify and quantify health-related issues.
- It's also useful to measure progress toward quality improvement and public health goals.
- Accurate and timely documentation of births and deaths is essential to high-quality vital statistics.
- All teams at the OBGYN department play an essential role in ensuring accurate representation of vital statistics around births, maternal and fetal deaths.
- By law, the registration of births is the direct responsibility of the professional birth attendant, generally a physician or midwife, and must be reported promptly.

<https://www.cdc.gov/nchs/data/misc/itop97.pdf>

NH Birth Certificate Data

- NH birth certificate data collects information about the birthing person, their spouse and newborn information.
- The questions are adopted from the US NCHS Standard Certificate of Live Birth.
- NH data contributes to National Vital Statistics System (NVSS) data.
- Every birthing hospital has a unique structure of collecting this information.
- The NH birth registrars and OBGYN teams collecting birth certificate data are the front line in assuring accurate birth data and are a vital part of the health care team
- Collected information is used by local, state and national partners
- For example, you can access NH's birth certificate aggregate data from online websites such as

<https://wonder.cdc.gov/controller/datarequest/D149>

U.S. STANDARD CERTIFICATE OF LIVE BIRTH

LOCAL FILE NO.	U.S. STANDARD CERTIFICATE OF LIVE BIRTH			BIRTH NUMBER:

Uses of NH Birth Certificate Data

- Support NH Maternal and Child Health Programs
<https://www.dhhs.nh.gov/programs-services/population-health/maternal-child-health>
- For the ongoing MCH Needs Assessment: [SurveyMonkey Powered Online Survey](#)
- Identify maternal and infant deaths through data linkage of death certificate and NH birth certificate data.
- Birthing hospitals, NH PQC, RMOMS and many other state organizations relies on this data for quality improvement.
- Identification of emerging or known infectious threats during pregnancy.
- Data is used to show need during grant applications
- Grant reporting, e.g. Title V block grant
 - AIM Capacity grant and ERASE MM grant

NH Grants utilizing birth certificate data

- HRSA MCH/Title V Block grant
- CDC Pregnancy Risk Assessment Monitoring System
- CDC Preventing Maternal Deaths: Supporting Maternal Mortality Review Committees
- HRSA State Systems Development Initiative (SSDI)
- HRSA AIM Capacity Grant
- HRSA Newborn Screening Grant
- HRSA Early Hearing Detection and Intervention
- HRSA Maternal, Infant and Early Childhood Home Visiting grant
- ACYF Child Abuse Prevention and Treatment Act (CAPTA)

Recommendations to Improve Birth Certificate Data

- Prompt documentation of the birth certificate in the medical record by appropriate personnel.
- Training your hospital personnel on correct documentation of race/ethnicity and payor data.
- Using references to categorize payment method for the listed insurance name.
- Coordination between teams, e.g. clinical personnel filling the birth certificate data and the birth registrars.
- Each birthing hospital should send a representative to bi-annual birth certificate data quality meetings.
- Follow CDC and NCHS’s State Vital Statistics Reporting Regulations,” available at [State definitions and reporting requirements for live births, fetal deaths, and induced terminations of pregnancy \(1997 revision\)](#) and [Guide to Completing the Facility Worksheets for the Certificate of Live Birth and Report of Fetal Death](#)
- Staff can take a CDC online training at <https://www.cdc.gov/nchs/training/BirthCertificateElearning>
- Other Suggestions??
